GERMANY WILL BE FED LAST

HOOPER OUTLINES PLANS FOR FEEDING HUNGRY POPULATION OF EUROPE.

By the Associated Press

PARIS, Jan. 4.—Herbert C. Hoover, newly appointed director of allied food relief work in newly liberated neutral and enemy territories in Europe, told the Associated Press today that German ships totaling nearly 3,000,000 tons will be used to carry food to Europe and that German passenger boats will be utilized to carry Americans home. Liberated territories will be fed first according to Hoover. Food to the amount of many millions of dollars must be imported into Europe to provide for the needs of the people between now and July 1. The problem of financing the project is now being considered by the president, Hoover said.

In discussing the food situation in Germany Hoover said the United States has thirty-eight officers traveling through the country making an investigation and their reports not complete enough for a definite statement. In any event, he indicated that Germany will be fed last.

APPROPRIATION FOR SUFFERERS

WILSON ASKS \$100,000,000 FOR FAMINE RELIEF IN EUROPE.

It is understood that the money is wanted chiefly to send food into sections of Western Russia, Poland and Austria-Hungary.

OKLAHOMA COLLECTED \$112,275 INHERITANCE TAXES IN 1918.

OKLAHOMA CITY, Jan. 4.—Inheritance taxes collected for Oklahoma during 1918 amounted to \$112,275, according to figures given today by Ben Watt, who has located and collected the taxes. Of this amount \$76,630 was collected on non-resident estates and \$35,645 from residents of the state. Collections were made from eighty-four estates and in fifty-seven counties. Previous to 1916 the largest amount of inheritance taxes collected a year was about \$10,000; in 1916 the amount collected was \$25,269 and in 1917 \$54,000. There were twenty-one non-resident estates from which the tax was collected and sixty-three resident estates.

Some change in the handling of the inheritance tax probably will be recommended to the Legislature. It will be proposed to include this as a part of the duties of the Attorney General's office, with authority for him to designate some one to attend to that work exclusively.

MARINE MILLARD FORD HOME FROM FRANCE

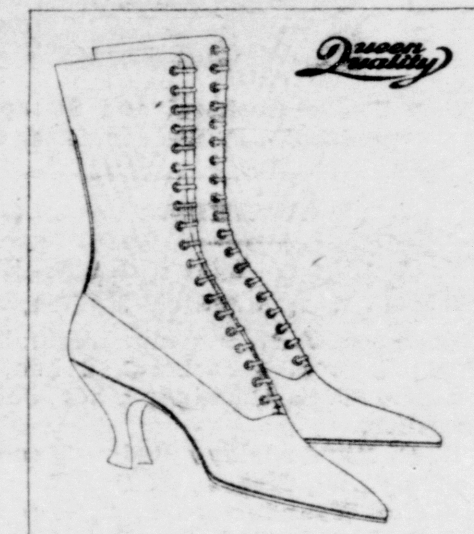

Millard Ford, son of S. M. Ford, who lives east of Ada, is at home on a furlough. He has been with the marines and went through the worst of the fighting in France. In course of the victorious drive by his force, well named the "devil dogs" by the Huns who felt the force of their onset, he was badly wounded and gassed and is just now recovering from this frightful experience. The war department being two or three months behind with the casualty list, his name is just now appearing.

The president played a mean trick
on Lieut. Governor Trapp. Had he
elevated the governor to the federal
bench when the place first became
vacant, Trapp would have enjoyed
the distinction of being a full fledged
governor for a few months, but now
it is not likely that Bob will quit his
present job until the new governor
is inaugurated and Trapp is still just
a lieutenantgovernor.

It is really puzzling to see that
some people are getting down in the
mouth about the business future for
the coming year. Did they ever stop
to think the task that is laid upon
this nation? What nation is it that
is going to have to feed, rebuild and
finance the war torn nations of Eu-
rope? The United States. Our
pledge for foodstuffs this year alone
is twenty million tons. This amount
has to be raised by American farm-
ers, besides food for our own people.
The demand will be great and so will
the price. Then there is the factory.
Every line of industry was affected
by the war and as they stepped back
into their peace times run Building
in this country will resume its nor-
mal gait. The educational system of
this country will be better, for we
have learned a few lessons in this
war. With these and other proofs be-
fore our eyes, the only outlook that
can be seen is a big business year.

Bob Williams has at last received
his coveted appointment as federal judge.
However, it required about five
months for the Oklahoma delegation
to congress to force the appointment
through, the president and attorney
general evidently holding their noses
while making the appointment. With
the Oklahoma bunch it was a ques-
tion of getting Williams out of state
politics and not his qualifications that
weighed more. Williams had a won-
derful opportunity as governor, the
state never being in greater need of a
broad minded, brainy man at the
head of the government. Williams
could have been to Oklahoma what
Jim Hogg was to Texas, but he was
not big enough to grasp the oppor-
tunity. He had a whole string of
grievances to pay off and devoted a
large part of his time to pursuing
men he had grudges against and pay-
ing them off, instead of devoting his
best efforts in behalf of the people
who elected him. He leaves the office
without having reflected any credit
on it.

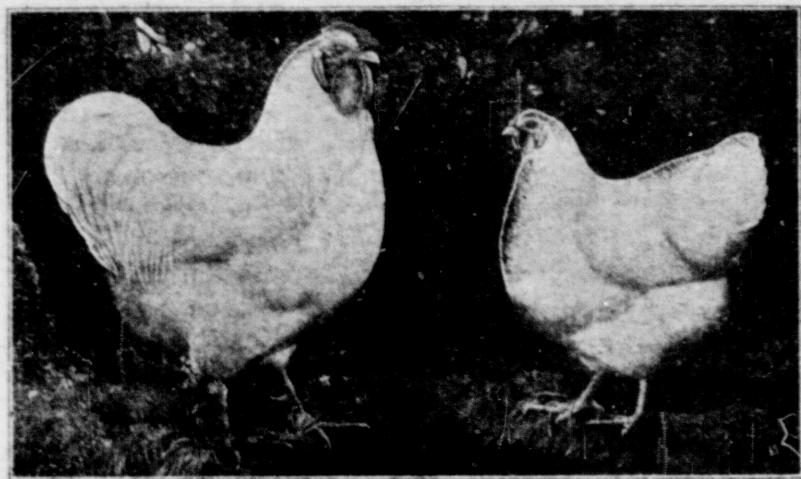

MILITARY TRAINING IN PUBLIC SCHOOLS.

In some places in Oklahoma some
opposition is heard to the contin-
uance of military training on the
ground that it is an effort to encour-
age the fighting spirit of the young
generation.

As we see it, the training should
form part of the curriculum of every
school. It is not for the training as
fighters, but the physical benefits
derived from the training. We have
all seen great hulking boys go to the
army and when returning home on
furlough after some months in the
camps, scarcely recognize them. Not
only had their bearing become more
manlike and easy, but almost to a
man they had gained in weight and
strength and took pride in their per-
sonal appearance. To a lesser extent
this will be true of the school cadets
and developing their physical being
is certainly part of education. A
healthy body is necessary to support
a healthy mind.

Furthermore, there is the discipli-
nary value to be considered. Ameri-
cans have never been noted for re-
spect for authority, where it inter-
fered with their inclinations. Eight
years as a teacher in the public
schools brought us to the conclusion
that the average boy needs more dis-
cipline if he is to become a law abid-
ing citizen and should be taught
more respect for constituted author-
ity, instead of devoting his thoughts
to outwitting authority and have his
own way. This is exactly where the
military feature comes in. We be-
lieve it will be the best thing that
could happen should military drill
be made a permanent feature of ed-
ucation, whether there is another war
during the next generation or not.
The lot of two million young men in
the present war would have been
easier had they been given this train-
ing in their youth.

number from participating. The an-

SEVERAL DIVISIONS WILL BE RETAINED

CAMP TRAVIS, Texas, Jan. 4.—

No men of the 18th or Cactus Divi-
sion, or usual camp units, such as
Quartermaster Corps, Utilities, Base
Hospital, etc., stationed at Camp Tra-
vis, Texas, are being discharged from
the service at this time. This state-
ment comes from headquarters of
the Camp owing to the fact that
hundreds of letters are being receiv-
ed by the Commanding General seek-
ing release of soldiers.

The false impression appears to
have spread that the army was to be
immediately demobilized following
the signing of the armistice. It is
not the intention of the War Depart-

ment to include men serving in Di-
visions from the 8th to 20th, inclu-
sive, in the general demobilization
plans. These soldiers, and those of
the Camp Units, it is pointed out,
have as important duties to perform
as those in Pershing's Army of Oc-
cupation in Germany.

About 11,000 soldiers at Camp
Travis have been discharged to date,
but these are nearly all from the
165th Depot Brigade, Independent
Medical Units and Casuals, arriving
from overseas. Men in the Division
and the Camp Units mentioned are
likely to have several months serv-
ice ahead of them.

Over carefully, then Act.

Have you ever stopped to think that if each farm would produce
100 chickens and 50 to 75 turkeys each year for market, it would
put even more than the above amount of money in circulation
among the farmers of this County each year? This is saying noth-
ing of the eggs which would be produced from this amount of poul-
try which would amount to at least \$100,000.00. This county can
produce a HALF MILLION DOLLARS in poultry and eggs each
year and not half try.

BULLETIN

Missionary Bulletin of the Wom-
an's Missionary Society, First Meth-
odist Church.

Our Prayer—"Grant us, O Lord,
in all our duties your help, in all our
perplexities thy council; in all our
dangers thy protection, and in all
our sorrows thy peace, for the sake
of Jesus Christ, our savior."

The Missionary Society will meet
Monday in the church parlors at
three o'clock. Let every Methodist
woman make a New Year's resolution
to be present. Let's start the New
Year right, for you know "It is good
to go into the house of the Lord."

Our Superintendent of Supplies,
Mrs. W. B. Jones, sent off two boxes,
thirty-six quarts of fruit to our Wes-
ley House, Hartshorne, Oklahoma;
one box of linen to the Orphan's
Home, Oklahoma City. Our Society
has a good report for the past year,
but wonder if we have really done
"our bit." We stand on the thresh-
old of great events. How are we
planning to meet them?

Our first vice-president, Mrs. R. C.
Jeter asks the co-operation of the
mothers in her work.

Young People's Missionary Society.
Six reasons for organizing and
maintaining a Young People's Mis-
sionary Society.

1. It is the authorized young people's
missionary organization of the
Methodist Episcopal Church, South.
2. It covers every activity of every
department of home and foreign in-
terests.

3. It meets every mental need of
the individual member in its study
and its intellectual outlook.
4. It meets the spiritual need of
the young people in its culturing
study and missionary activity.

5. Its maintenance is necessary to
the Church that she may meet her
financial and religious obligations to
the world.

6. Only by knowing the needs of
the world and what means our
Church is using to meet them can our
young people be trained for the ef-
ficient Christian service as adults.

If God be for us, who can be
against us?—Romans 8:31.

A NERVOUS WRECK

From Three Years' Suffering. Says
Cardui Made Her Well.

Texas City, Tex.—In an interesting
statement, Mrs. G. H. Schill, of this town,
says: "For three years I suffered untold
agony with my head. I was unable to
do any of my work.

I just wanted to sleep all the time, for
that was the only ease I could get, when
I was asleep. I became a nervous wreck
just from the awful suffering with my
head.

I was so nervous that the least noise
would make me jump out of my bed. I
had no energy, and was unable to do
anything. My son, a young boy, had to
do all my household duties.

I was not able to do anything until I
took Cardui. I took three bottles in all,
and it surely cured me of those awful
headaches. That has been three years
ago, and I know the cure is permanent
for I have never had any headache since
taking Cardui.

Nothing relieved me until I took Cardui
It did wonders for me."

Try Cardui for your troubles—made
from medicinal ingredients recommended
in medical books as being of benefit in
female troubles, and 40 years of use has
proven that the books are right. Begin
taking Cardui today. NC-13/

A Doctor's Gift to The World

A Remedy to Overcome Catarrh and Catarrhal Conditions was Dr. Hartman's Legacy to the World of Suffering.

The Doctor early recognized the insidious nature of catarrh and consecrated his life to checking the ravages of the worst of all health destroyers.

PERUNA

The Greatest of All Catarrh Remedies

Catarrh first attacks the mucous linings in the nose, throat, lungs, stomach, bowels or any other part of the body. Unchecked it finally breaks down the tissues and chronic ailments develop which, if not fatal, are always difficult to cure.

Guard your health with Peruna. Don't wait until too late. Peruna is excellent for coughs, colds, effects of the grip and all catarrhal inflammation and congestion of the mucous linings. Many startling recoveries have been recorded.

TOOK IT FOR CHRONIC BRONCHITIS.

"I was troubled for four or five years. A few doses of Peruna would always bring relief. In the Spring of 1914, I began taking Peruna in earnest and used twelve bottles and have not had an attack in two years. I feel better and can do more work than in ten years. Peruna also cured me of chronic bronchitis and I recommend it as a splendid remedy."

HAD CATARRH IN WORST FORM

"I had catarrh and was all run down. Many claimed it was consumption and I really thought so myself. I had a pain in my lungs and left side, no appetite, could not sleep, always weak and tired. My weight was 89 pounds. I took fifteen bottles of Peruna and an entirely cured. I now weigh 135 pounds. Thanks to Peruna."

THE NEW COMET

Which has been visible in the United States and Canada for the past five years is now heralded by Musical Astronomers to become more distinctly visible this year, and will last for years to come. During the year 1919 this wonderful Comet which musical astronomers have named,

The NEW EDISON

"THE PHONOGRAPH WITH A SOUL"

Will be visible to everyone who lays any claim whatsoever to a musical taste. So-called talking machines are merely sparks from the Edison Comet's tail, and like other similar sparks, will lose their glow as this Comet further out-distances them in the coming years. If you have not the good fortune of being able to appreciate the wonders of this Comet in your own home, come to our Shop and we will arrange a wonderful mental view for your appreciation. At Christmas time, this last year (1918), this Comet shone with a luster whose brilliance outshone everything in the way of musical instruments in the vicinity of this "Double AA Town." ADA NEGROES PLANNING A BUILDING PROGRAM.

Some time ago the best element of negroes of this city were discussing the wisdom of leaving Ada for other points because of unsanitary location, the immoral atmosphere in which they had to live among the beastly element among their own race, as well as inability to secure ownership of property.

With the intelligence that the commercial club, county and city officials were favorable to a plan of a new addition and more sanitary quarters, new interest has been awakened among them; they dream of new and more commodious homes; they see themselves segregated from the low and immoral element of their own race, and the welcome of a better and a more substantial element of their own people.

In anticipation of the heavenly vision they have organized a Business League to plan the reception of this element and to arrange for the many new buildings that will follow the opening.

A monster meeting is to be staged at the Napier school tonight at which time further plans will be discussed. Principal McCutcheon will deliver the address in connection with the installation of a fraternal lodge which stands in support of the new addition and will be the first to build.—Contributed.

"WHY I WOULD NOT MARRY"

The Love Trials of the Most Beautiful Woman on Earth. Twenty-five Reels of Drama assembled in one Powerful Story.

From One Woman to Another

If hubby is the kind who likes home-made pies and hot dinners, don't talk feminism to him. If he is a scientist, looking pretty will hardly do the trick. Adele Moore tried it and failed in the second episode of "Why I Would Not Marry."

The story of the clinging vine is not true of woman alone. Man needs his prop as well, and his prop is woman. If you are unfaithful to him, he has nothing left to strive for, nothing left to work for, and so he sinks as Tom Vane sank in "Why I Would Not Marry."

Work and a wife don't make a good team, if it's all work and no wife day in and day out. A husband who neglects his wife for his profession is just as selfish as a woman who spends a man's hard-earned money recklessly. Selfish men like this come to grief, as witness the episode of the physician in "Why I Would Not Marry."

If you hate your husband, drive him into bankruptcy. If you love him, watch over your bank account as if it were your own.

Never get married for the sake of having a "Mrs." in front of your name. Make sure you are going to be happy before you attach yourself to a man. Four times in the world of the mystic globe, in "Why I Would Not Marry," Adele Moore prefixes "Mrs." to her name—four unhappy times.

A smile in your home is worth ten in the ball-room. So many couples go through life as if it were a fancy-dress ball, hiding their sorrow under masks. Adele Moore lives this kind of life with Ralph Sterling in the first episode of "Why I Would Not Marry."

Don't hanker after the moon if your gaslight is good enough. Lucile Vane in "Why I Would Not Marry" was not content with the love of a good man because he happened to be poor. She wanted baubles and frills so she destroyed her perfectly happy home to get them from another man.
